3-Layer parquet

3-layer panel parquet elements for full-surface bonding on conventional screed or dry screed systems. The panel parquet elements with surrounding grooving are installed by means of an external tongue. The designs and the format of the panel parquet elements are based on the raised floors WOODline. With the same look, it is possible to combine conventional screed areas with raised floor

- Panel parquet from our own production with highest quality
- Combination possibilities with our raised access floors
- Certified according to FSCTM possible

Technical Details

Gloss level	matt
